

User Stories

- **Password Generation**

As a user, I want to generate a strong password for my account, so that I can feel confident my passwords are difficult to guess or leak

- **Offline access**

As a user, I want to learn how to create and evaluate strong passwords without an internet connection, so that I can improve my security practices even when I'm offline.

- **Security tips/ Micro lessons**

As a user, I want to receive short, practical tips on creating and managing strong passwords, so that I can avoid common mistakes like reusing or simplifying passwords.

- **Phishing awareness**

As a user, I want to learn how to recognize phishing attempts, so that I can avoid being tricked into giving away my login details or clicking malicious links

- **Password strength feedback**

As a user, I want to see clear feedback on my password's strength, so that I understand how secure it is and can make improvements.
